

The story

As one of Australia's oldest companies, Furphy Foundry is proud of its heritage and a strong dedication to producing excellent products has always been paramount. Furphy Foundry's commitment to manufacturing such high-quality products was first summarised in 1910 when company founder, John Furphy inscribed the following words on the cast ends of a Furphy Water Cart:

"GOOD, BETTER, BEST - NEVER LET IT REST - TILL YOUR GOOD IS BETTER - AND YOUR BETTER, BEST."

Aluminium collection

Street furniture of distinction, and time-tested design, now available in aluminium

celebrating **150** years

Aluminium collection

Browse the full range at furphyfoundry.com.au

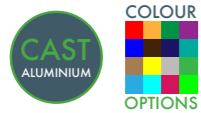

Manufacturing brilliant cast aluminium street furniture takes patience, skill and expertise, but the results are well worth the effort.

Furphy Foundry regards creating aluminium street furniture more as an art form than a job, and have perfected the process over many years.

All aluminium castings used at Furphy Foundry are recycled, another benefit of choosing such a lightweight, resilient and attractive material.

Our aluminium range are built to not only compliment any outdoor area, but with all the attributes intrinsic in the metal:

- Low maintenance
- High strength
- Corrosive resistance
- Low weight

Throughout the past 150 years, we've developed a strong commitment to producing quality products. The core culture of our modern business revolves around this commitment, and we look forward to carrying on our proud history for many years to come.

All of our products are manufactured under an ISO9001 Quality Management System.

All products also available in **Hardwood**
